

[Create a WOW Shot]

Creating the WOW! Shot

Photography is the most accessible art form available to the general public. The art of photography is the ability to tell a story, convey an emotion, or create a lasting impression. The ability to take a great shot comes with practice of putting yourself in situations that will provide the opportunity, and practicing patience. Have a camera with you all the time. When those great situations occur, you will be ready to take the picture. Have you ever heard anyone say, “Wow I wish I had my camera with me!” Fortunately, taking great pictures has very little to do with how expensive the equipment is. It is, the ability to take the picture when the situation arises.

Take your camera with you everywhere you go. Take some extra time to stop and get the shot. If you make this a habit, you will produce the one great picture you wanted to capture. Digital cameras are great for this purpose; keep one in your car, with extra batteries on hand.
